

The End of the Financial Year is Looming!

**KEEP
CALM
END OF
FINANCIAL YEAR
IS COMING**

With only a couple of days until the beginning of a new financial year, now is a good time to work on the following:

- Stocktakes will need to be completed for 31.03.2016
- All creditors and debtors invoices entered for the 31.03.2016 year
- Ensure you have all donation receipts
- Copies of Interest Certificates
- Copies of Loan Statements

Mileage Rates

If you're self-employed you can use the Inland Revenue mileage rate to calculate the cost of using your motor vehicle for business purposes. Last year the commissioner reviewed the mileage rate for the 2015 tax year and decreased it from 77 to 74 cents per kilometre.

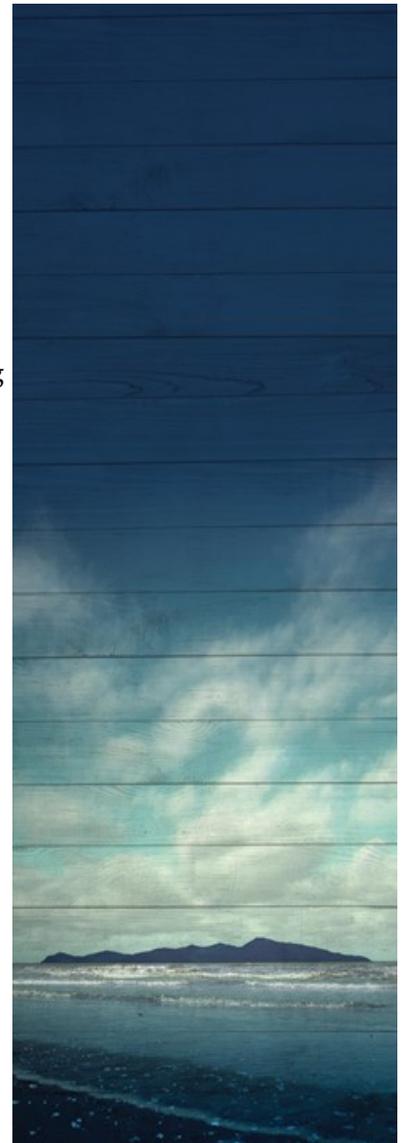

The Inland Revenue's Crackdown on 'Cashies'

The Inland Revenue Department's crackdown on 'cashies' continues with their focus on undeclared cash in the construction and hospitality sectors. Last year, the Auckland region saw the most activity. Inland Revenue are now widening their reach. They've been trying to change attitudes among tradies and subcontracting businesses and their efforts seem to be getting results. Inland Revenue acknowledge people trying to cheat on tax are in the minority but stress that they're a very expensive minority. The so-called 'hidden economy' is a cost to all New Zealand taxpayers, who carry more than their fair share because of it. There's another hidden cost too, as business owners who are meeting their tax obligations find it hard to compete with operators who can undercut on quotes because they don't pay tax.

What's this have to do with you, you may ask. Because we're sure you're up to date with your tax obligations. In which case: sweet.

However, if you are in the situation of having under-reported – or unreported – income, now is a great time to straighten it all out. We want to help you make sure your returns are accurate and timely and, as far as possible, help you avoid penalties and use of money interest on any tax owing.

If you think you might have got yourself into a mess with your tax, declaring it early and taking action to correct it goes a long way toward setting you apart from deliberate tax evaders. You may have made a mistake or filed an incorrect tax return, left out some income from your return or incorrectly claimed expenses. We can help you make a voluntary disclosure which may reduce shortfall penalties by up to 100% and protect you from prosecution.

Setting the Record Straight

Inland Revenue have signalled they will be looking at businesses' record keeping systems. Key targets will be that all jobs and all income are being recorded and that GST is being handled properly. Recent prosecutions indicate that PAYE records are another hot topic, along with the corresponding employment records. If sketchy records are a quick way to set off the IRD alarm bells, this could be a great time to review your systems.

As a business owner you are required by law to keep certain records. Poor record keeping lets you down just in terms of the penalties that apply for record keeping failures (up to \$12,000). Inadequate systems also make it harder for you to keep track of what you owe, how much you have already paid, to whom and what for and who owes what to you. You lose track of things, miss key deadlines and your costs increase in proportion to how much of a nightmare it is to straighten it out.

With the advances in online systems of recent years, many businesses have overhauled their systems and are in good shape to pull out regular management reports that detail their position clearly. However, there may still be areas where things fall through the cracks.

This applies particularly in industries such as construction where large amounts stay on the table as retentions until the job is completed and it is difficult to keep track potentially across several tax years. At the other end of the scale, the high volume and high speed cash transactions of the hospitality sector can also punch holes in the records.

If you are still making do with the basic systems you started out with, it is possible that your business has outgrown them and they now constitute a business risk. At Finman Services, we can help you to look at this and do something about it, if necessary.
